

**Ministry of Health & Population - Egypt
Central Administration
for Technical Support and Projects
Health Sector Reform Programme**

**Monitoring and Evaluation System
INTRODUCTION WORKSHOP**

10 - 15 May, 2003

Objectives:

1. Define the theoretical framework of the “new” monitoring system
2. Explain the newly developed indicators, tools and procedures
3. Use the newly developed indicators in practice (data collection, calculation of the indicators, use of the forms, and guidelines etc.) and the proposed data flow
4. Describe how to use (data entry) the soft-ware package to get the indicators
5. Interpret the indicators in various circumstances.
6. Demonstrate competency to produce evidence for decision making on the basis of the Monitoring and Evaluation System.
7. Appreciate the importance of using the newly developed Monitoring and Evaluation System for the Health Sector Reform Project.

PROGRAM

Saturday 10 May
